

FINDS HIS SHEEP LOST SINCE FALL

Mountain Farmer Recovers Most
of Flock He Had Given Up as
Stolen or Dead.

TEAM TUMBLES DOWN HILL

Wagon and Horses Caught by
Tree Just in Time to Save
Them from Stream.

[Special to The Times-Dispatch.]
MONTEREY, VA., March 11.—The
unlooked-for good fortune of Mr. R.
W. Lightner in recovering a bunch of
lost sheep has averted a considerable
loss to him, and furnishes a striking
illustration of the instinct and en-
durance of dumb animals. Mr. Light-
ner, residing near the Bath Highland
line and running a bunch of sheep
Knob, perhaps the highest point in
Virginia. In the fall round up twenty-
five sheep could not be found, and
were thought to have fallen a prey
either to thieves or wild animals, and
were given up as lost. Last week he
received word that his missing sheep
had been seen struggling for their
existence in the deep snow of the
mountain range. He went to the re-
scue and found seventeen of the twenty-
five, one of them dead, but the others
living, and twelve of them in fine
condition. How they had managed to
live through the terrible weather of
January and February is a mystery,
for the snow was reported to be five
feet deep at times, with huge drifts,
under which they must have been
buried, certainly for a portion of the
time.

Team Tumbles Down Hill.
Mr. W. L. Trimble, while returning
from Bath county to his home near
Monterey, had a thrilling adventure
near Mr. H. H. Terry's on Tuesday. He
was driving four horses attached to a
load of corn, and, in attempting to
pass a slide in the Jackson's River
road, the entire outfit went over a
steep embankment at the foot of which
—some thirty feet below—the river
flowed, in a more or less turbulent
state, owing to heavy thaws and rains.
The wagon turned over three times
and lodged against a small tree, and
the horses, bounding detached, all
stopped short of the river, only one
of them getting seriously hurt. Mr.
Trimble himself escaped with a bruised
knee, and the corn, being in bags, was
also recovered. The work of getting
the wreck in shape for moving again
required a force of men several hours.

Child Drinks Carbolic Acid.
A four-year-old child of Mr. and Mrs.
John Hevener, whose home is near
Monterey, while playing in the yard
Monday evening, found an old vial
containing carbolic acid and drank the
contents. An alarm was given and a
physician summoned, and by heroic ef-
forts the life of the little fellow was
saved. It is not known how much the
bottle contained, but evidently a small
quantity.

Home Partially Burned.
A telephone message received here
this morning announced the partial de-
struction, by fire, of Mr. Frank Brat-
ton's residence, on Jackson's River.
Mr. Bratton, a prosperous young farmer,
lived at the old Lockridge homestead,
and the portion of his house destroyed
was a new addition recently built, and
not immediately connected with the
old house.

LYNCHBURG DECIDES NOT TO JOIN IN THE FIGHT

[Special to The Times-Dispatch.]

LYNCHBURG, VA., March 11.—The
Board of Trade, at a called meeting
yesterday decided by resolution not to
enter into the contention of the State
Corporation Commission of North Car-
olina against the Norfolk and Western
railway, as instituted through an in-
tervention petition filed with the In-
terstate Commerce Commission a month
or more ago.
The result of this action is that
Lynchburg will not have a part in the
controversy along with other Virginia
cities, which desire to be in a position
to make a contest should their inter-
ests be in jeopardy during the hearing
of the Carolina complaint.

The Farmer's Wife

Is very careful about her churn. She
scalds it thoroughly after using, and gives
it a sun bath to sweeten it. She knows
that if her churn is sour it will taint the
butter that is made in it. The stomach is
a churn. In the stomach and digestive
and nutritive tracts are performed pro-
cesses which are almost exactly like the
churning of butter. Is it not apparent
then that if the stomach-churn is foul it
makes foul all which is put into it?
The evil of a foul stomach is not alone
the bad taste in the mouth and the foul
breath caused by it, but the corruption of
the pure current of blood and the dissem-
ination of disease throughout the body.
Dr. Pierce's Golden Medical Discovery
makes the sour and foul stomach sweet.
It does for the stomach what the washing
and sun bath do for the churn—absolutely
removes every tainting or corrupting ele-
ment. In this way it cures blotches,
pimples, eruptions, scrofulous swellings,
sores, or open eating ulcers and all
humors or diseases arising from bad blood.
If you have bitter, nasty, foul taste in
your mouth, coated tongue, foul breath,
are weak and easily tired, feel depressed
and despondent, have frequent headaches,
dizzy attacks, gnawing or distress in stom-
ach, constipated or irregular bowels, sour
or bitter risings after eating and poor
appetite, these symptoms, or any consid-
erable number of them, indicate that you are
suffering from biliousness, torpid or lazy
liver with the usual accompanying indig-
estion, or dyspepsia and their attendant
derangements.

The best agents known to medical sci-
ence for the cure of the above symptoms
and conditions are stated by the writings
of leading teachers and practitioners of
all the several schools of medical practice
to be Dr. Pierce's Golden Medical
Discovery. That this is absolutely true
will be readily proven to your satisfaction
if you will but mail a postal card request
to Dr. J. C. Pierce, Littleton, N. Y., for a
free copy of his booklet of extracts from
the standard medical authorities, giving
the names of all the ingredients entering
into his world-famed medicines and show-
ing the most eminent medical men of
the age say of them.

of the Second Presbyterian Church, in
this city, has accepted the call re-
cently extended to him by the First
Presbyterian Church in Raleigh, N. C.,
and will leave for his new charge
during the latter part of this month.
As recently stated in The Times-Dis-
patch, Dr. White came to Petersburg
from Lewisburg, W. Va., in March, 1892,
and has become one of the most be-
loved pastors in the city. Under his
charge the congregation of the Second

creased in numbers; the funds for both
foreign and domestic missions have
been immensely enlarged, and the
scope of the work in domestic mis-
sions greatly extended. Services are
now maintained at the Westminster

army, the others becoming members

MEETS WITH HIS USUAL SUCCESS HERE

Charles Lincoln Smith is Appreci-
ated by Virginians, Who Declare
That His Reputation is Deserved.

REGARDED BY MANY AS PUBLIC BENEFACCTOR

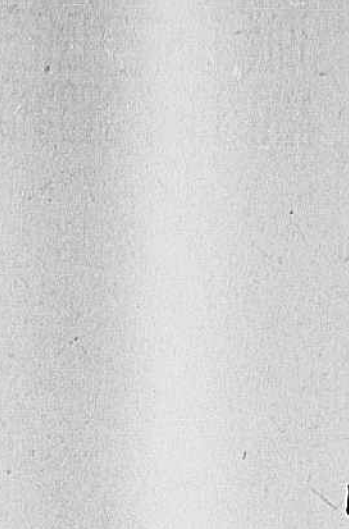

Of the hosts of distinguished men
who have come to Richmond none
has had greater encouragement than
Charles Lincoln Smith, whose splen-
did achievements in the world of
science have been the envy of this
city, and, in fact, the entire State.
As perfect eyesight is fundamental
for every good thing in life, an abso-
lute requirement for business success
and a comfort to the none-but those af-
flicted can estimate the success of
Charles Lincoln Smith's method and
prescription glasses in relieving de-
fects of vision has not only caused won-
der and amazement among scientists
everywhere, but has been an inesti-
mable boon to thousands who have
long dwelt in misery because of anti-
quated and inefficient methods for cor-
rection of visual defects.

A large number of grateful people
of Richmond and vicinity who have
been impelled by what Charles Lin-
coln Smith has done for them to tell
others about it, personally and in the pub-
lic press, many of them looking at it as
a duty they owe to suffering humanity.
The great eyesight expert has given
a practical demonstration to the
people that he fully deserves the high
reputation as an advanced scientist
now in the minds of the people here.
For the past six years Charles Lin-
coln Smith has been paying regular
visits to this city. Each time he is
greeted by former patrons, who were
so materially benefited, and in almost
every case old patrons have sent
suffering friends to the man who had
helped them so much.

If you have blurring, dizziness, neu-
ralgia, headache, spots before the
eyes, inflammations, winking, trem-
bling, spells, cataract, burning and
smarting of the eyes, various nervous
and brain affections, failing not only
positive injury to the sight, but un-
told misery, call immediately.

Charles Lincoln Smith, the famous
New York optician, will be at Mur-
phy's Hotel Annex, private rooms Nos.
150, 152 and 154, March 10th to 14th,
1903. Consultation absolutely free this
week. Eighth Street entrance. Take

YOUR HOME will be healthier when you keep bottled
Schlitz. The barley is food—the hops are a tonic. And
the drinking of liquids flushes the system of waste.

Every doctor knows that most people drink too little.
On this account, their systems become clogged with waste.

There lies the main good of watering places. They
induce the drinking of water.

That is one reason why the drinking of beer is good
for you. It leads you to drink more liquid than you would
drink without it. And that liquid is both a food and a tonic.

The sturdiest peoples of the earth drink the most of it.
But be sure that the beer is aged, so it will not cause
biliousness. And be sure it is pure.

Schlitz beer is all healthfulness.

Disputants, where he had been at-
tempting to sell the stolen animal to a
well-known horse dealer named Par-

jail this morning to await the action
of the Manchester authorities. The
negro first appeared in Disputants last
Monday with the horse, but when he
moved on again yesterday the horse
was not in sight. After a search of
the adjacent woods had revealed the
hiding-place of the horse, the negro ad-
mitted that he had stolen him in Man-
chester last Friday night.

For stealing eight milk skins from
the Southern Express Company in Feb-
ruary, James Hicks, colored, was sent

the theft, and was attempting to sell

FOR NEGRO'S DISAPPEARANCE.

Jim Dickinson, Young White Man,
Held Upon Suspicion.

[Special to The Times-Dispatch.]

EMPORIA, VA., March 11.—Jim
Dickinson, a young white man living
near Emporia, was lodged in the coun-
ty jail to-day after a preliminary ex-
amination before Mayor Everett.
Dickinson is suspected of having
foully disposed of a negro companion
last Wednesday while fishing in the
Meherin river, west of Emporia. The
negro in question was Joe Turner, who
has not borne an enviable reputation.
Dickinson did not give any reason-
able excuse for Turner's disappearance
and positively asserts he knows
nothing of his whereabouts. The negro
when last seen had \$18 or \$19 in his op-
eration, according to evidence adduced
in the Mayor's Court to-day.

The Meherin River for several hun-
dred yards has been explored in the
vicinity where the two men were last
seen fishing, but no trace of the miss-
ing negro so far has developed.
